

QUALITY POLICY

We, at **TECHNOLOGY INTERNATIONAL** shall work towards total customer satisfaction by:

- Consistently carrying out improvements in our products, processes and methods.
- Continuous development of skills at all levels to provide opportunities for fullest expression of individual capabilities.
- Knowing the customer including their end use and staying close to them to understand their needs and expectations and translate these into reliable products and services.
- Building relationship with our sub-contractors, business associates and employees based on mutual trust and openness.
- Providing value to everyone we deal with from employees to customers to stake holders.
